

Sergiy Kulyk

Managing Partner

Deloitte Ukraine

BRIEF BIOGRAPHY:

Sergiy Kulyk was appointed Managing Partner of Deloitte Ukraine in November 2019. Concurrently with this important role he leads the Audit & Assurance practice.

Sergiy Kulyk has about 20 years of experience both in auditing international, large public and private companies in various industries, and in providing consulting services on the implementation of internal controls and financial reporting systems. Under his leadership, the Deloitte Audit & Assurance practice has been recognized twice as the best in Ukraine (2017, 2018) by Corporate INTL Global Awards. Since joining Deloitte Ukraine in 2000, he has gone from an auditor assistant to his current appointment as Managing Partner.

Sergiy is a member of the Methodological Council for Accounting at the Ministry of Finance of Ukraine and a Fellow of Chartered Certified Accountants (FCCA).

Why do you think membership in the American Chamber of Commerce is important for business operating in Ukraine?

ACC membership opens new opportunities for business at various levels. First, it is a platform that brings together large international businesses, facilitates the development of B2B relationships, helps to understand how other companies are running their business in Ukraine, as well as share the services and opportunities among the Chamber members. Furthermore, ACC is the most active and effective B2G platform for establishing a dialogue between the government and business as well as contributing to the country's economic development.

What motivates you to be a Chamber Board Member?

As a father of five children, the development of Ukraine is important to me. I would like my children to be able to live comfortably in this country, to develop, do business, and build their lives. I try to do everything in my power to pursue this goal. One of Deloitte's objectives is to promote the country's economic development through business transformation. This is where our goals are in tune, as ACC's activities are focused on improving investment climate in Ukraine and supporting its economic growth. I believe that in synergy we can achieve the best results.

Why do you feel you are qualified to serve on the Chamber Board? What skills would you bring to the Board?

I head the Ukrainian office of the world's largest professional services firm. Our resources include more than 300,000 professionals in the world and more than 500 professionals in Ukraine with an in-depth expertise in various sectors of the economy. Working closely with business, we have a broad picture of how various businesses operate that allows us to accumulate insights every day.

Furthermore, I have more than six years of executive board experience in Ukraine, and I have been heading the board since the last year.

I am convinced that my experience, expertise, and managerial skills will help the Chamber members to achieve the set targets.

How have you been active in the Chamber over the course of the last two years?

Deloitte Ukraine is an active ACC member. We hold joint events for businesses. In particular, one of our latest projects include TaxHubs, presentation of the Industry Control study results, and holding of events for the Chamber's HR Committee. We also take an active part in the studies that explore the current situation in the country and help business leaders to navigate through the times of uncertainty. In the past year, we have participated in three studies that explored the impact of COVID-19 on business and one study about salary reviews. I also had the honor to take part in the ACC Leadership in Crisis project and share how our company is addressing the challenges posed by the crisis. Victoria Chornovol, Deloitte Tax and Legal Partner, heads the Chamber's Tax Committee. Therefore, our specialists of the highest level with the expertise in various fields actively cooperate with the Chamber, investing their time and knowledge to provide comprehensive support to business.

What activity or Committee would you participate in and be responsible for?

I believe that my work in the Energy or Consumer Goods Committee will be most effective in terms of achieving results.
