

Dear Friends,

I trust that all your colleagues are alive and safe.

I have made a public call on US companies and multinationals to shut down all operations in Russia immediately. US companies must stop profiteering in a pariah state that murders innocent women & children and attacks a nuclear power plant in 21st century Europe.

Please contact your top management and global colleagues and challenge them why some companies continue their operations in Russia and persist profiteering with a regime with blood on its hands.

All those asking me to send a message directly to your CEO or Board, please send details with email addresses, names, and positions, and I will be happy to do so.

In the end, we will remember not the words of our enemies but the silence of our friends.

With my sincere best wishes,

Andy Hunder
President
